

**DESCRIPTION:**

ROVAL NATURAL STONE SOLUTIONS STONE POLISH is designed to maintain a variety of polished natural stone and synthetic surfaces. STONE POLISH is a special blend of highly buffable polymers and surface-active surfactants that easily polish to a beautiful shine without harming delicate surfaces. STONE POLISH protects against water rings, scratches and stains on counter tops, ceramic wall tile, chrome fixtures, glass, porcelain, vanities and more. STONE POLISH can be applied by hand or with a buffing machine.

**RECOMMENDED FOR USE ON:**

This product is intended for use on polished natural stone (e.g. polished marble and polished granite), synthetic surfaces and surfaces that have been treated with high gloss coatings. STONE POLISH can also be used on ceramic wall tile, chrome fixtures, glass, porcelain, vanities and more.

**NOT RECOMMENDED FOR USE ON:**

This product is not recommended for use on floors! Do not use on vinyl, rubber or leather. Immediately remove any STONE POLISH from these surfaces using a soft brush with mild soap and water.

**SURFACE PREPARATION:**

Always apply STONE POLISH to a clean, dry surface.

**DIRECTIONS FOR USE:**

*Always test the suitability of this product on the intended surface before approving it for use.* For best results, apply to a clean and dry surface. Pour a small amount of polish onto a clean, dry wax applicator, cotton cloth or towel. Apply polish to a small area of the surface by gently rubbing in a circular motion. Allow STONE POLISH to dry to a haze and buff to a high shine using a clean, dry cotton cloth. Can be applied by hand or with a machine.

**PACKAGE SIZE:**

12/1 Pint Cases

**CAUTION:**

Contains Petroleum Distillates. Harmful or fatal if swallowed. If swallowed, do not induce vomiting. Call a physician immediately.
