

PRODUCT DESCRIPTION: ROVAL STEP 3 TERRAZZO FLOOR POLISH is a high gloss, slip resistant floor polish de-signed to protect and maintain sealed terrazzo floors. STEP 3 TERRAZZO FLOOR POLISH produces a non-yellowing, deep “wet look” finish without buffing and helps protect the floor from daily wear and tear of foot traffic such as scuff marks, marring and black heel marks. STEP 3 TERRAZZO FLOOR POLISH is suitable for both residential and commercial applications. STEP 3 TERRAZZO FLOOR POLISH is designed, manufactured and tested to meet or exceed ASTM guidelines for slip resistant floor finishes (test results are available upon request). Being designed for excellent recoatability without excessive build up, STEP 3 TERRAZZO FLOOR POLISH is ideal for use as a regular maintenance product.

RECOMMENDED FOR USE ON: Sealed terrazzo floors and most other sealed, non-glazed tiles and composition flooring.

SURFACE PREPARATION: Always apply STEP 3 TERRAZZO FLOOR POLISH to a clean and dry floor, free from any dirt, dust, grease, silicones, waxes, oils and all other foreign materials. If the terrazzo is to be restored, the floor should be prepared before using this product by cleaning with ROVAL STEP 1 TERRAZZO HEAVY DUTY CLEANER & WAX REMOVER and sealed with ROVAL STEP 2 TERRAZZO SEALER & BRIGHTENER. For maintaining existing terrazzo floors, make sure all old, dingy wax build up has been re-moved completely before applying STEP 3 TERRAZZO FLOOR POLISH. For heavy duty cleaning and removal of wax and dirt build up, use ROVAL STEP 1 TERRAZZO HEAVY DUTY CLEANER & WAX REMOVER diluted 1 part cleaner to 1 to 2 parts clean water. Follow the STEP 1 TERRAZZO CLEANER Label instructions for proper use.

DIRECTIONS FOR USE: Apply STEP 3 TERRAZZO FLOOR POLISH using a lint free cotton or rayon mop, sponge or wax applicator. Do not use a roller. Apply STEP 3 TERRAZZO FLOOR POLISH in a thin, uniform and even manner leaving no puddles or voids. Apply two or three coats waiting at least two hours between coats. Allow at least two hours before exposing the floor to light foot traffic.

MAINTENANCE: Once the floor has been properly prepared and treated with STEP 3 TERRAZZO FLOOR POLISH, it can be maintained by sweeping often and damp mopping once a week with ROVAL STEP 4 TERRAZZO NEUTRAL CLEANER and applying STEP 3 TERRAZZO FLOOR POLISH only in the traffic areas. The polish will feather into the existing areas without any visible overlap. STEP 3 TERRAZZO FLOOR POLISH is self-leveling, self-polishing and does not require buffing. If overlap is visible or high traffic areas look better than the rest of the floor after treatment, apply STEP 3 TERRAZZO FLOOR POLISH to the entire floor area as per label instructions. This process will minimize the build up of the floor polish and maximize the life of the floor.

COVERAGE IN SQUARE FEET PER GALLON: Terrazzo: 1200-1500.

PACKAGE SIZE: 6/1 gallon case, 5 gallon pail and 30 and 55 gallon drums.

SPECIAL NOTES:

1. Do not apply STEP 3 TERRAZZO FLOOR POLISH if the temperature of the floor is below 60° F.
1. Never use acids to clean terrazzo floors, as this will cause the polish to turn white and peel off the floor.
2. Do not pour unused portion of polish back into the original container.
3. Clean all tools after use with soap and water.
4. Keep STEP 3 TERRAZZO FLOOR POLISH from freezing.
5. For interior use only.

SPECIAL PRECAUTIONS:

KEEP AWAY FROM CHILDREN!

IN CASE OF INHALATION: Vapors and mist may irritate nose and throat. Remove victim to fresh air. If symptoms persist or become evident, seek medical attention.

IN CASE OF SKIN CONTACT: No known irritating effects. Remove contaminated clothing. Wash skin with soap and water. Launder contaminated clothing before reuse. If irritation becomes evident, seek medical assistance.

IN CASE OF EYE CONTACT: Vapors, mist and liquid are mildly irritating to eyes. Immediately flush eyes with large amounts of water for 15 minutes while holding eyelids apart. Seek medical attention.

IN CASE OF INGESTION: No health risks expected in commercial use. Ingestion of this material in small amounts no health risks. Ingestion in large amounts poses minimal health risks. If swallowed, thoroughly wash mouth with water and give two glasses of water. Do not induce vomiting. Seek medical assistance.

TECHNICAL PROFILE:

Viscosity:	Water Thin
